America and much of the rest of the world is now living under a facist medical tyranny, with more and more basic freedoms being lost everyday as we rush toward a medical police state where the Constitution of the U.S. is set aside as meaningless and obsolete by those with a lust for power and control.³²⁸

Those behind-the-scenes of this great travesty of freedom and liberty would prefer to “cancel” the U.S. constitution, to obliterate any respect for the last bastion of sovereignty in the U.S. Law and order are considered an obstacle to their tyrannical ambitions.

The trillion dollar question is, will enough people resist the political and medical tyranny being foisted upon us?

“Quarantine is what you do to restrict the movement of a sick person. Tyranny is when you restrict the movement of a healthy person.”

Even if the worst case scenario of computer projections were on point, and let us say, 2 million Americans died of

COVID- 19, many more would have suffered, starved, suicided or otherwise died due to the myriad side effects of the lockdowns, not because of the virus.

As it turns out, their computer projections were wrong by a factor of 10, however, the dire consequences of the lockdowns were actually worse than one could have imagined. This was one of many mistruths that have plagued this “pandemic”.

Center for Disease Control and Prevention (CDC) Director, Robert Redfield, promoted a general reopening of schools, highlighting the low coronavirus risk for children without preexisting conditions, and the unfortunate spike in suicides and drug overdoses, which Redfield said are “far

“pandemic” creates the perfect ambiance to do so. If our political leaders were actually honestly concerned about public health, then a lockdown might have been an option if carefully orchestrated.

The International Emergency was first declared when the World Health Organization (WHO) officially announced COVID-19 was a “pandemic” on March 11, 2020.³³³ This was several months after the initial outbreak in Wuhan, China in November 2019.

WHO was on the fence about declaring it a pandemic for months. WHO collaborated with China on concealing the extent and seriousness of this pandemic.³³⁴

Years ago, China bought its influence and economic power into the United Nations (UN), thus China was a large part of influencing the UN's decisions and actions regarding COVID-19.

Even though the U.S. was the largest single funding source for WHO³³⁵, the Gates Foundation funded GAVI³³⁶ and China had more medical and international

influence and power than its U.S. counterpart.

On April 14, 2020, U.S. President Trump suspended funded WHO and wrote a scathing letter detailing his reasons for doing so.³³⁷

By the time WHO declared COVID-19 a pandemic, it had already spread around the world including the U.S. with the first positive test case in Seattle, Washington on January 21, 2020.³³⁸

A U.S. intelligence officer claimed that early alarms about the pandemic went unheeded.³³⁹

After the National Emergency was finally declared by U.S. President Donald Trump on January 31, 2020,³⁴⁰ other countries followed suit.

It is important to understand that a "Declaration of National Emergency" opens up federal funding for states and public health agencies while certain

emergency powers then become available.³⁴¹

"Martial Law" is declared in the case of insurrection, rebellion or civil war. If martial law is declared, then the U.S. military can be brought in by the U.S. President to enforce law and order. Martial law, if declared, suspends the U.S. constitution as was done during the Civil War and as well as once during WWII.

Martial law is an extreme and rare measure used to control society during war or periods of civil unrest or chaos. Martial law on the national level may be declared by Congress or the president.

If Martial law³⁴² is declared, the "continuity of government" emergency operation takes hold and the U.S. President is ushered off to a secure bunker and constitutional government is temporarily suspended.³⁴³ As of August, 2020, U.S. President Trump has not declared "martial law", and to his credit, he refrained from declaring such in response to looting and rioting during the protests.

U.S National & State Emergencies

A "Declaration of a U.S. State Emergency" bestows limited, 30-Day emergency powers during a pandemic.

³⁴⁰ [White House](#) | Secretary of Health and Human Services (HHS) declared a public health emergency on January 31, 2020, under section 319 of the Public Health Service Act (42 U.S.C. 247d), in response to COVID-19

³⁴³ [Mint Press News](#) | Continuity of government

These emergency powers can be extended lawfully by the consent of the state legislatures. This “Declaration” also activates the National Guard as needed by the states.³⁴⁴

What was deeply disturbing about the U.S. States, notably those U.S. States with Democratic Governors, was the extent to which these Governors expanded their emergency powers beyond what a sound pandemic response might be.

Unfortunately, the Democratic Governors went to great lengths during an election year to make the pandemic response a partisan, political circus to make Republican Governors and U.S. President Trump appear incompetent in the eyes of the public.

The dominant left, liberal mainstream media went along for the ride and further fueled the flames of division along party lines to the extreme edge of provoking a civil war during a “pandemic”. As an intelligent and wise nation should understand by now, violence ends democracy. Twenty years of media consolidation by the Global Elite has not been good for democracy.³⁴⁵

The extreme lockdowns were suggested by public health “experts” including Dr. Fauci and Dr. Birx who were part of Trump’s COVID-19 response team. Both had intimate connections with the Gates Foundation. Haven’t we had enough of expert opinions yet? Apparently not.³⁴⁶

Stanford Professor John Ioannidis indicated that the USA was severely overreacting to COVID-19. Researchers at Stanford concluded that more damage than good was done by the crackdown than for public health and safety.³⁴⁷

Orange County’s Dr. Jeff Barke broke his silence on the negative impacts of shutting down the economy.³⁴⁸ Many

other researchers opined that shutdowns were pointless for containing COVID-19.³⁴⁹

Former U.S. Congressman Ron Paul went so far as to suggest that the coronavirus was a hoax.³⁵⁰ Trump had indicated a similar sentiment in the beginning. Neither of these men meant that COVID-19 didn't exist, but that the political reaction to COVID-19 was a planned "hoax" during an election year aimed at taking away our freedoms and expanding tyrannical rule.³⁵¹

Even in the aftermath of the first wave of the COVID-19 "pandemic", the left, liberal mainstream media, political leaders and public health officials were spiking the news with threats about the next COVID-19 wave with warnings of new cases and fatalities attributed to COVID-19. *The only "pandemic" is fake news, fake numbers and real fear.*

For the sake of not just another gripping headline, but with much more sinister intent, the mainstream media has been fueling more COVID-19 panic.³⁵² Along with the mainstream media, social media has also been weaponized in this battle for dominance and power.³⁵³ Always remember who owns corporate media. Big Pharma provides 50% of the mainstream media funding in a non-election year, so they are going to support the agenda of their advertisers.³⁵⁴

These corrupt political representatives acting like petty tyrants are playing a dangerous game with people's livelihoods and their fear of death which is counterproductive from a public health standpoint (if they actually care about public health at all).

U.S. Republican Governors

Republican U.S. States that did not shutdown their economies seem to be faring much better than the lockdown Democratic States. South Dakota Governor Kristi Noem did not shut down her state.³⁵⁵ Governor Noem criticized Americans for giving up liberties for a “little bit of security”. She refused to declare a state “stay-at-home” order.³⁵⁶ She is encouraging schools to open without mask mandates.³⁵⁷

South Dakota is considering the first state bill to outlaw all vaccine and medical mandates.³⁵⁸ Meanwhile in April 2020, Adams County, Colorado voted against mandatory vaccines.³⁵⁹

The Governor of Idaho issued a “stay-at-home” order, then ended the order, thereby restoring normal activity.³⁶⁰ The Governor of Kansas had a religious gathering ban blocked by a federal judge.³⁶¹

Four Michigan sheriffs vociferated that they won’t enforce their Governor’s

orders.³⁶² Texas Governor Garry Abbott deemed religious services “essential”.³⁶³

The Governor of Georgia Brian Kemp has ordered “no mandatory masks”.³⁶⁴ Governor Doug Ducey of Arizona has cited that requiring the wearing of masks would violate constitutional freedoms. Of the 19 States that do not mandate masks, 18 are run by Republican Governors.³⁶⁵

fact, suggestions or recommendations, not law. The COVID-19 pandemic is exposing tyrants all over the U.S.³⁶⁶

Indiana Governor Eric Holcomb signed an Executive Order which will mean a statewide mask requirement which came into effect in Indiana. Those who don't follow the new order could be charged with a Class B misdemeanor, which is punishable by a fine and up to six months in jail.

Governor Holcomb decreed that all residents and visitors in the state will be required to wear face coverings such as masks in public or risk facing a criminal charge. Since when does a Governor

make laws, then entirely bypass the state legislature?³⁶⁷

Reaching the point of absurdity, a Wisconsin state agency now requires employees to wear masks while teleconferencing.³⁶⁸ An explosion in mandatory masking isn't driven by science, but by fear.³⁶⁹

U.S. State Governors Exceeding 30-Day Time Limits on Emergency Authority

Supreme Courts have ruled that even during a state emergency, governors have a 30-day window to respond to such emergencies. Beyond that 30-day window, which can be renewed, governors require the consent of their state legislature to enforce their decrees.

Attorney Mari Foreman Groff says these state governors are pushing beyond the limits of their emergency powers.³⁷⁰

The Michigan Supreme Court backed a barbershop that stayed open in rebuke of dictatorial governor's restrictions.³⁷¹

Meanwhile, the Wisconsin Supreme Court struck down Governor Tony Evers "safer at home" order since he didn't have the consent of the state legislature to uphold the order.³⁷²

"At the end of June 2020, the governors of New York, New Jersey and Connecticut announced that anyone coming into their states from other states identified as coronavirus "hot spots", now up to 19 states, are required to quarantine themselves for 14 days upon entering.

Ironically, Gov. Andrew Cuomo of New York earlier in the "pandemic" called a similar policy put in place by Rhode Island unlawful for those from New York, then threatened to sue Rhode Island.

State-to-State travel restrictions are constitutionally dubious and deeply problematic, because they violate the separation of powers between the state and federal governments. U.S. State Governors have no authority whatsoever to limit interstate commerce or travel.

Although governors have been granted emergency powers to respond to a pandemic, these powers have limits. In particular, governors can only exercise the power that has been granted to them by the legislative branches of their state. Constitutional guarantees, such as the right to due process and the right to travel, further constrain the governors' emergency powers.

Most state legislatures have recognized that the power to quarantine

or isolate infected individuals is a critical tool in a governor's pandemic response arsenal. However, ordering someone not to leave their home is a significant incursion on liberty. Accordingly, state legislatures have placed stringent limitations on the exercise of this power."³⁷³

A 2005 film titled "V for Vendetta" is about a totalitarian dictatorship that gains its power by creating a society of fear due to an alleged virus spreading throughout the world. In the film the media pushes fear-based propaganda on the television screen of every household and on the city streets. The authoritarian dictator promises security but not freedom. The constant theme of "this is for your safety" is repeated throughout the film. Most importantly the film ends with society waking up and the corrupt, fascist regime is dismantled. 20. COVID-19 & The 5G Factor

Is it just a “coincidence” or is there a connection between the large-scale deployment of 5G technology and COVID-19? For a brief summary of 5G radiation, read Create Healthy Homes: [“5G Brief Summary”](#) and [“5G Synopsis”](#).⁴¹²

There are plenty of theories due to international studies regarding the detrimental health effects of 5G millimeter wave radiation distinct from the 4G microwave radiation. In a Russian study, thousands of birds fell from the sky. Dana Ashlie does an interesting analysis, though of the connection between COVID-19 and 5G radiation which inspired us to think about any correlation.⁴¹³

From one perspective, the COVID-19 virus, if it is a virus, may spread whether we have 5G or not. Human beings catch viruses, some people get sick, and unfortunately, some people die whether from the seasonal flu or COVID-19. Usually, a virus then disappears for a season, mutates and returns for another round.

5G has an impact on the healthy immune system of human beings. It is well-established that radiation does suppress immune functions. If one is exposed to 5G (or 4G) radiation for extended periods of time, for example, when living, sleeping or working near an antenna, router or modem with a high-use of mobile phones, or home lines with radio-frequency extensions, symptoms such as headaches and fatigue may arise. Thus, one may become more susceptible to a viral infection or COVID-19.

Was it also a coincidence that COVID-19 had its debut in Wuhan, China immediately after 5G was fully deployed

⁴¹¹ [Citation Needed](#) | Robert F. Kennedy, Jr., Children's Health Defense

⁴¹² [5G Brief Summary](#) & [5G Synopsis](#) by Create Healthy Homes

⁴¹³ [YouTube](#) | Dana Ashlie does an interesting analysis of the connection between COVID-19 and 5G radiation

in that city with thousands of antennas, or that New York City had just activated an extensive 5G system immediately prior to the “outbreak” of COVID-19?⁴¹⁴

What is the extent of a correlation between the seriousness of the COVID-19 outbreak, the mysterious strokes, people falling dead in the streets of Wuhan (or were these videos faked), the heart failures, and the death rates in areas where 5G had been recently deployed such as New York City, Los Angeles, Atlanta?⁴¹⁵ Why are otherwise brilliant scientists, the U.S. government, FDA, FCC, and the mainstream media ignoring these correlations?

Robert F. Kennedy, Jr. of Children’s Health Defense, did not find sound scientific evidence to support the theory that 5G is the cause of the COVID-19 epidemic,⁴¹⁶ though he believed that 5G may be a contributing factor.

Furthermore, there exist many other factors that may increase the spread of COVID-19 such as personal hygiene, sanitation, pre-existing conditions, population density and age group.⁴¹⁷

Health Effects of 5G Radiation

*It is a well established fact that 5G radiation in large doses, especially near antennas, routers, modems and cell phones, alters the blood cell permeability and ability for the lungs to absorb oxygen.*⁴¹⁸ This is also prime condition of COVID-19 as well.⁴¹⁹ Symptoms of both COVID-19 and 5G exposure include shortness of breath, inability to smell, unquenchable thirst and headaches.

Mobile phones emit radio frequency radiation (i.e., radio waves), a

form of non- ionizing radiation. Parts of the body nearest to the antenna can absorb this energy. We have been led to believe that the cell phone away from our heads will minimize the radiation.

However, after using an EMF (electro-magnetic frequency) detector, it was revealed that cell phone radiation, routers, modems and home lines were still in the red zone up to 10 feet away.

In recent years, the number of cell phone calls per day, the length of each call, and the amount of time people use cell phones have increased. Steer clear of high-powered antennas, 4G and especially 5G towers.

How to Remediate the Effects of 5G

First and foremost, greatly reduce or eliminate your use of mobile phones

whenever possible. To remediate the effects of the mobile phone, do not use your mobile phone or home phone near your head. Use the speaker phone instead of the handset, which actually only helps minimally. Keep your mobile phone away from your sleeping space. Shut down your Wi-Fi router or modem at night while you sleep or when not using it.

Then, adapt your laptop, desktop computer or cell phone to connect directly via an ethernet cable to your router or modem.

Create a safe room or safe house with a Faraday cage⁴²⁰ if possible. A Faraday cage will shield mobile phone signals, 5G, Wi- Fi, DECT, smart meters, EMF RFID and other electromagnetic radio frequency radiation.

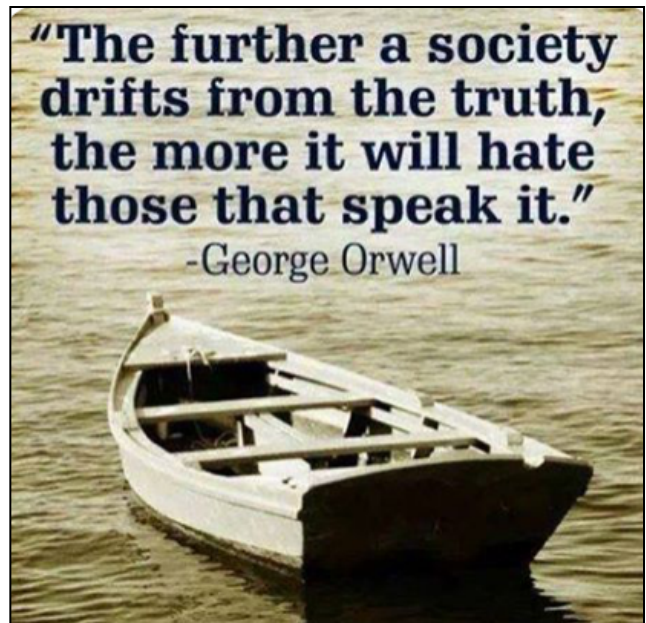

⁴²⁰ [Wikipedia](#) | A Faraday cage or Faraday shield is an enclosure used to block electromagnetic fields. A Faraday shield may be formed by a continuous covering of conductive material, or in the case of a Faraday cage, by a mesh of such materials. Faraday cages are named after scientist Michael Faraday, who invented them in 1836.

In the alternative to a Faraday cage, purchase a few Faraday pouches to shield mobile phones and larger Faraday bags to shield routers, modems and home phones when Wi-Fi is neither needed nor being used. These convenient Faraday pouches or bags are essential for minimizing EMFs and are inexpensive.

If you purchase an EMF meter you can measure the amount of radiation being emitted, thus design your office and home space accordingly to minimize harmful radiation. One can also ground EMF radiation in your home or office by sitting or sleeping on “earthing” sheets plugged into the ground socket of any convenient receptacle for a better night’s sleep.

21. Total Surveillance State & The Right to Privacy

Have we grown to become so conditioned to the presence of control at every level of government, and the corporate sector, that totalitarianism doesn’t shock us anymore?⁴³⁰

Is it not shocking, not even surprising, that the CIA partnered with Amazon for cloud surveillance and RFID locators in 2013 for tracking and microchipping both humans and animals?⁴³¹ Or that Bill Gates backed a \$1 billion plan to cover the earth with surveillance satellites⁴³² and he called for a national vaccine-tracking system?⁴³³

Immunity & Health Passports

A proposed “Immunity Passport” united 60 corporations who claim their “Self-Sovereign ID” project will not compromise the privacy of their users. These companies are working on a digital certificate to let individuals prove (and request proof from others) they have either recovered from COVID-19, have tested positive for antibodies or have received a vaccination.⁴³⁸ The real danger of a COVID-19 vaccine is the rapid development of “Agenda ID2020”.⁴³⁹

What is the infamous ID2020? It is an alliance of public-private partners, including UN agencies and civil society. It is an electronic ID program that uses generalized vaccination as a platform for digital identity.

“*Health Passports*” are being considered in U.K. and other countries.⁴⁴⁰ French Polynesia now requires a medical certificate for entry into their country.⁴⁴¹ Mass tracking COVI-PASS “Immunity

Passports” are slated to roll out in 15 countries.⁴⁴²

The problem with “Immunity Certificates” like these is that large-scale antibody testing may be a way out of mass lockdowns, however, they are actually human control systems, otherwise pointless and meaningless.

These certificates create perverse incentives for people to expose themselves to COVID-19 so as to be able to resume work or travel internationally. The true aim of these certificates has nothing to do with public health, but to be able to manipulate and control the populace.⁴⁴³

Beginning in September 2020, Hawaii State Governor Ige, who has been seen meeting with Chinese officials, has required all who enter Hawaii to provide an official negative COVID-19 test for entry upon arrival. Furthermore, temperature checks are becoming more routine in doctors offices and airports. Is it a coincidence the manufacturers designed these medical tools to look exactly like a “gun being pointed at your head”? You decide.

This is the beginning of the slippery slope of the total control and the rise of authoritarianism.

Rise of Authoritarianism

NSA Whistleblower and privacy advocate Edward Snowden observes the

rise of authoritarianism long before the COVID-19 pandemic.⁴⁴⁴ He also explains that COVID-19 gives governments invasive new data-collection powers that could last long after the pandemic.⁴⁴⁵

New tracking technologies that violate our privacy are being implemented during this pandemic.⁴⁴⁶ For example, the U.S. has begun to utilize smartphone location data to fight COVID-19.⁴⁴⁷ Both the U.S. and the European Union (EU) are implementing programs to track our smartphone location data.⁴⁴⁸ The CDC is setting up a COVID-19 a *“surveillance and data collection system”*.⁴⁴⁹

The question is, how many deaths are needed to justify giving governments absolute control of nearly every aspect of our lives?⁴⁵⁰ The manipulated fear of COVID-19 could adversely affect privacy and civil liberties forever.⁴⁵¹ Meanwhile in 2019, Facebook was fined \$5 billion by the Federal Trade Commission (FTC) for privacy violations.⁴⁵²

Contact-Tracing

Former National Security Administration (NSA) contractor Edward Snowden warned that COVID-19 surveillance and contact-tracing could lead to an abuse of power.⁴⁵⁴

Snowden contends that even though China, Taiwan and South Korea have been using contact-tracing technology to reduce the spread of the virus, governments are also using the COVID-19 pandemic to build an “architecture of oppression”.⁴⁵⁵

The U.S. government is beginning to implement the World Health Organization's “contact-tracing” to forcibly remove people from their homes.⁴⁵⁶ California is building an army of disease detectives. California is test state for WHO's contact-tracing.⁴⁵⁷ All U.S. states have received substantial funding through the CARES Act to roll out comprehensive contact-tracing protocols door-to-door across the nation.

Texas state health officials granted a \$295m contact-tracing deal to MTX Group. Turns out that corporation is connected with Soros, Clintons and Gates.⁴⁵⁸ Meanwhile, Minnesota is using contact-tracing to track protesters.⁴⁵⁹

22. Legal Authorities for U.S. Public Health Officials & State Governors

"Generally, state and local public health agencies have broad and flexible authority to protect the public health. However, the exercise of governmental power has its limits.

The United States Constitution contains a Bill of Rights that sets out individual liberties and protects individuals from the arbitrary use of governmental power. These rights may

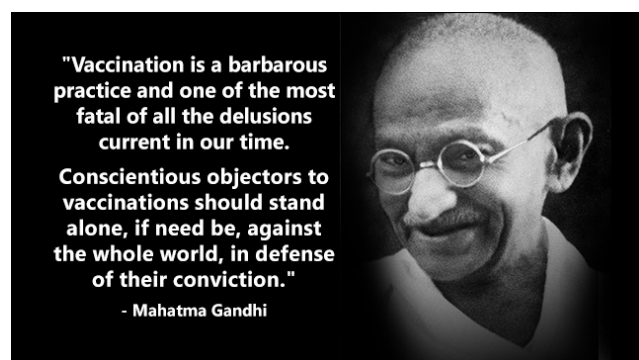

impact the extent of public health collection and sharing of information.

There is no "law" requiring anyone in the U.S. to wear a mask in public. Some public health officials and state governors may believe they have the authority to make such emergency decrees, but these decrees are not "law". Even with the state legislature's approval a governor cannot make laws and act outside or beyond the limits of U.S. Constitution.

Right to Privacy

The Constitution provides a limited right to privacy, including "informational privacy." State laws that require reporting of or public health agency access to identifiable information are permissible when they are reasonably directed to the preservation of health and properly

respect a patient's confidentiality and privacy.

Right Against Unreasonable Search & Seizure

Only with the owner's permission, may public health agencies enter or search the premises of an individual or business, take biological specimens or environmental samples for testing, copy records, and remove evidence that might be relevant to a public health concern.

However, absent consent or the applicability of another exception, public health agencies must comply with requirements in the U.S. Constitution's Fourth Amendment.

The Fourth Amendment of the U.S. Constitution, requires that a warrant be obtained, based upon probable cause, to search someone's premises or seize their property. The Fourth Amendment applies

to both criminal investigations as well as health and safety inspections, and investigations.

In addition to consent, other exceptions to the warrant and probable cause requirement may apply to public health inspections and investigations, including searches of pervasively regulated businesses, searches of premises or items open to the public, plus searches based on exigent circumstances if delay is likely to lead to injury, public harm, or the destruction of evidence.

Right Against Self-Incrimination

The Fifth Amendment of the U.S. Constitution, right against self-incrimination, prevents the government from forcing an individual to be a witness against himself or herself during trial or a custodial interrogation.

If an individual is not informed of his or her right against self-incrimination, the individual's statements and evidence obtained as a result of these statements may be suppressed in criminal proceedings.

This right may arise when a public health incident involves criminal activity, especially when law enforcement and public health investigators are conducting joint interviews or public health agencies assist law enforcement to gather evidence."⁵⁰³ There must be a balance between public safety and the preservation of civil rights.⁵⁰⁴

Furthermore, since Big Pharma began advertising on mainstream media, drug prescriptions have dramatically increased along with skyrocketing profits at the very high cost of human life and health including increased opioid and drug addiction.

Big Pharma advertising has become a major revenue source for mainstream media who have without question lined up behind their vaccine and pharmaceutical agenda.

From the 1950s to the early 1980s, pharmaceutical companies were not legally allowed to run any product-specific ads in the mass media. In September 1985, the FDA rescinded the moratorium on pharmaceutical advertising and required advertisements to meet the same legal requirements as those directed at physicians.

felt increased pressure from a variety of sources to ease the regulations and permit broadcast advertising.⁵⁰⁹

To protect the public from the adverse effects of extensive drug advertising, the FDA should once again abolish advertising pharmaceuticals on broadcast media. This will have an added benefit of less drug addiction and a reduction in the costs of health care.

The Notion of Sovereignty

When Johnny Liberty⁵¹² first began researching sovereignty in 1992, he was surprised to discover very few Americans had any notion of "sovereignty", except for indigenous people, for example,

⁵¹¹ [Wikipedia](#) | Hippocrates of Kos was a Greek physician of the Age of Pericles (Classical Greece), who is considered one of the most outstanding figures in the history of medicine. He is often referred to as the "Father of Medicine"; The term "doctor" originated from the Latin verb "docere" which means "to teach". Doctor and teacher were used interchangeably.

⁵¹² Excerpted from the "Global Sovereign's Handbook" by Johnny Liberty; [Liberty International Catalog](#)

Cherokee Indians, or European monarchs such as Queen Elizabeth.

Considering “sovereignty” is the central concept around which all political, economic and legal systems revolve, he was amazed how, in a matter of a few generations, “sovereignty” had become virtually absent from the English language, and missing from everyday political conversations.

As Mr. Liberty taught over the last thirty years in the U.S., Mexico, Bahamas, Bermuda and Aruba, more and more people began awakening to their individual sovereignty. The United States of America (USA) was the first country in the world based on the sovereignty of the individual above that of the government. It was a bold and courageous experiment, imperfect, but worthy of its founders.⁵¹³

Whether one was a U.S citizen, American National or sovereign state Citizen, We the People are all human beings with a natural birthright to exercise our rights and express our freedom, regardless of the political, economic or legal system of the particular nation state one was born into.

The principle of individual “sovereignty” equates to “claiming internal authority over your life”, standing in your own character and presenting oneself as a sovereign human being.

First and foremost, We the People may reclaim internal authority over our physical, spiritual, mental and emotional

sovereignty, then, by an act of free will restore economic, legal and political sovereignty by strategic withdrawal from external authority. Doing so transforms our relationship with the powers-that-be and puts government back into a box of lawful, constitutional limitation.

An old adage wisely says, *“You can lead a horse to water, but you cannot force it to drink”*. We can teach people about sovereignty, but cannot force people to do what it takes to become sovereign and free.

Far too many people will not even take the first step to face and examine their fears. The next steps are continued introspection and research. Then arouse the will and courage to act according to ones conscience. Talk is cheap, but action is precious and rare.

We can provide people the tools, materials and resources, even the plans to build their dream house, but without the foundations of spiritual, mental and emotional sovereignty, the house remains like a dream in the clouds. 23. Stimulus Bills Are Fast Tracks to Socialism & U.S. Bankruptcy

Throwing “free money” into the vast sea of the American people with

stimulus checks from the federal government is a slippery slope toward socialism, then comes communism. Due to the COVID-19 pandemic, every citizen has for the first time in American history received a \$1,200 stimulus check from the U.S. Treasury via the CARES Act (Coronavirus Aid, Relief and Economic Securities Act) of March 27, 2020.

The CARES Act is a unique form of “welfare” we have never seen before. Indeed, this is the first step towards “nationalization”, or socialism, whereby the government takes control over the production of goods and services.

Small businesses could either apply for a Payroll Protection Program (PPP) through their local bank to keep their employees on the payroll or apply for a low-interest small business loan through the Small Business Administration (SBA).

Pandemic Unemployment Assistance was administered by each U.S. state.⁵¹⁵ This is despite the fact that half of the U.S. states don’t have enough funds to pay for their unemployment claims.⁵¹⁶

Corporate lobbyists have spent millions influencing the U.S. Congress to include their industries in the financial bailouts forthcoming from a series of stimulus bills which passed and were signed into law. The CARES Act was the

Federal Reserve Bank

Two days after the CARES Act was passed by the U.S. Congress and signed into law, U.S. President Trump took control of the Federal Reserve Bank (FRB) and placed under the authority and management of the U.S. Treasury via the CARES Act on March 29, 2020.⁵²⁰

This is the first time since the Federal Reserve Bank was founded in 1913 that the U.S. Treasury has been in control. Former U.S. Congressman Ron Paul (R-TX) advocated abolishing the Federal Reserve Bank for decades⁵²¹, returning to the gold standard as the global reserve currency⁵²² and restoring a debt-free constitutional money system.⁵²³ Trump effectively incorporated the FED

under the U.S. Treasury with the swipe of a pen.

The Federal Reserve Bank (FRB) is now looking into developing a digital currency, since oddly, cash seems to have become increasingly contaminated since COVID-19.⁵²⁴ The CARES Act allows the Federal Reserve Bank to conduct meetings in secret and gives the FED a \$454 billion slush fund for Wall Street bailouts.⁵²⁵

a massive \$700 billion quantitative easing program (i.e., printing money out of thin air).⁵²⁶ The Federal Reserve Bank and U.S. Treasury have pumped a staggering \$6 trillion into the economy since March 2020.⁵²⁷

Within two days after receiving a massive amount of stimulus money from the CARES Act, two of the largest investments banks in the U.S., Goldman and Morgan Stanley, immediately invested in majority stakes in Chinese ventures, thereby becoming 51% owners of an investments bank in China. Interesting to discover where their loyalties are.⁵²⁸ At the same time, U.S. President Trump moved to block U.S. pension fund investments in Chinese equities.⁵²⁹

The Federal Reserve Bank was considering implementing a “negative interest rate” of 0.25%. A negative interest rate means that borrowers get paid to take out loans by lenders. This has been adopted by a number of Central Banking Systems around the world, led by some European Central Banks as well as the Bank of Japan, with mixed results.

If a Central Bank sets its overnight deposit rate to below zero, lenders must pay their central bank to hold their reserves. Banks could then pass those costs on to their customers, charging fees for positive balances.

Some economists believe negative interest rates can jolt life into flatlining economies, encouraging money to be invested or spent, though other economists argue that a negative interest rate policy could keep an economy subdued.⁵³⁰

Is Socialism, Then Communism the Answer?

To be clear, in many ways, the U.S. is already a socialist country. Any government subsidy is a form of socialism, regardless of whether an individual or a corporation is the beneficiary. When the government manipulates or regulates the free market, this is a form of socialism.

If socialism⁵⁴⁶, communism⁵⁴⁷ or fascism⁵⁴⁸ are the answers, then where exists a working example of a utopia that didn't end up in total despotism?

24. Chinese Coverup & Propaganda

Western nations have hopefully learned a lesson from this ill-fated COVID-19 “pandemic” which is to never trust or rely on the Chinese Communist Party (CCP) or our own public officials to tell the truth, the whole truth and nothing but the truth, plus be capable of exercising wisdom in making important decisions.

By China’s failure to report the pandemic in its early phases to the rest of the world, including China’s allies, most countries were ill-prepared for the consequences. The damage alone to the global economy, and to the middle class, has been a loss of tens of trillions of dollars thus far, plus the unnecessary loss of countless lives.

The Chinese Communist Party’s coverup and mishandling of the Coronavirus allowed it to spread throughout China and, thereby create a global pandemic.⁵⁵⁴

Chinese virologist Yan Limeng, who secretly fled to the United States from Hong Kong in April, revealed that the Chinese Communist Party (CCP), and the World Health Organization (WHO), worked together to conceal evidence of the potential spread of the novel coronavirus among humans when the

outbreak first emerged in the central Chinese city of Wuhan in late 2019.⁵⁵⁵

Furthermore, the Chinese regime colluded with the World Health Organization (WHO) before and during the pandemic. See *"Infographic"*.⁵⁵⁶

Let us be vigilant. Despite the Wuhan casualties in their own country, let it be remembered that the Chinese Communist Party (CCP) is a cutthroat organization responsible for murdering 45 - 75 million of their own people during the Cultural Revolution under Chairman Mao's leadership. It was the largest genocide in recorded history.

China would be more than willing, under the CCP's leadership, to sacrifice millions of their own people for the righteous cause of Chinese superiority and economic world domination. This is a small price for China to pay for what appears to be a COVID-19 "war game". And the U.S. and other countries of the world have walked into China's trap.

China's ceaseless propaganda, intriguingly disguised as news (akin to Western mainstream media these days), boosts China's image in contrast to the image of the U.S.⁵⁵⁷ Numerous U.S.

officials have become quite vocal about Beijing's disinformation push during the COVID-19 "pandemic".⁵⁵⁸

The Chinese Foreign Minister spokesman tweeted a claim that the U.S. military brought COVID-19 to Wuhan, which is partially true as the gain-of-function research was paid for by the U.S..⁵⁵⁹ Meanwhile, Russia, China and Iran are spreading contradictory propaganda about COVID-19 and its origin.⁵⁶⁰

The Chinese regime claims that its top priority is social stability above telling the truth about what happened.⁵⁶¹ The

For many years, the Chinese regime persecuted the Falun Gong spiritual group⁵⁶³ and continuously spread disinformation about the award-winning Shen Yun⁵⁶⁴ theatre group. They are touring the world entertaining about ancient Chinese culture through dance, while exposing the Chinese Communist Party (CCP) persecution of their spiritual community.

Mao-Style Social Control Blankets China

To tame the spread of COVID-19, Mao-style social control continues to blanket China as cruelly as the Cultural Revolution.⁵⁶⁵ In the footnoted article, are a few tragic scenes from Wuhan’s makeshift hospitals that resemble [*“death camps”*](#).⁵⁶⁶

Chinese authorities are still underreporting new infections in Wuhan and around China.⁵⁶⁷ China’s coronavirus recovery is elusive and potentially inaccurate. Infections and casualties continue to mount.⁵⁶⁸ Doubts surface over China’s COVID-19 national death toll after thousands of urns were spotted in Wuhan.⁵⁶⁹

On the other hand, what if the low fatality numbers are accurate? Then quite a hoax has been foisted upon the U.S. and the rest of the world. Perhaps, there was no COVID-19 virus since neither the Chinese nor the U.S. identified any virus except a strand of RNA.

The CCP started mass quarantines again after failing to stop COVID-19 during the first round. The actual death toll in

Wuhan may be over 40,000, more than 16 times the amount reported.⁵⁷⁰ Wuhan conducted citywide testing after new coronavirus cases emerged.⁵⁷¹ Beijing's claim of no new infections contradicts the reality on the ground.⁵⁷²

It is now estimated that 460,000 Chinese businesses went under in first quarter of 2020 due to COVID-19. This fact has not been reported in China's positive-only "*China News*".

25. Undeclared War Between China & United States

Most Chinese people have been taught to dislike or loath the United States for decades under a tense exterior

of smiling, reluctant cooperation for apparently mutual benefit.

The truth is that the CCP has been carefully plotting and patiently planning its revenge upon the United States and Western Capitalism for decades, ever since China sustained heavy casualties in WWII.

China has lured many American and European businesses to China to bolster their economies, then steal their intellectual properties and nationalize their industries.

Previous U.S. administrations have been "soft" on China. Former U.S. Ambassadors and negotiators opened the doors to lop-sided agreements that

disproportionately benefited China. This trade war only recently began to equalize after U.S. President Trump negotiated and implemented tougher tariffs, plus more equitable trade agreements between the two countries rebalancing trade toward “protectionism” versus “free trade”.

Beneath the smiling exterior, there is, in reality, an economic war between the two economic superpowers, China and the U.S. No sooner had the ink dried on the trade deal, then China dropped the first COVID-19 “bomb”. The U.S. took the bait gullibly, and overreacted by shutting down, thus majorly damaging, the U.S. and world economy.

China was better prepared to handle COVID-19, having months of advanced, internal warnings which it did not disclose to the rest of the world. China ordered and hoarded necessary COVID-19 medical supplies from around the world, leaving other countries without masks and equipment.

The CCP took vast economic advantage of the consequent global downturn by buying up failing companies, land and other valuable assets around the world. An invisible war is raging. It is not a war fought with bullets and tanks, but a war of manipulation and propaganda, fueled by China's funding of U.S. and Western media. Watch the film, [*“Manipulating America: The Chinese Communist Playbook”*](#).

“This is a war fought by the Chinese Communist Party (CCP) against the free world using the full force of its propaganda and influence apparatus. Not only does the CCP actively spread its propaganda to the West, it has even succeeded in dictating what can and cannot be said in free societies. However, this growing influence has gone largely unnoticed. And by now, China’s pervasive influence has penetrated all levels of American society. In this new age of information warfare, where a hostile foreign power is waging a war for our minds, what can be done?”⁵⁷³

The Invisible War

This invisible war started decades ago when the ideals of the CCP started infiltrating prestigious universities and colleges.⁵⁷⁴ This infiltration was and is ideological with communist studies in Marxism and Maoism as well as

The Chinese have been enthusiastic in attending Western universities, then returning to China only to implement and copy what they learned in the West. They have also collaborated with Americans.

To study abroad, a Chinese citizen must, first and foremost, be loyal to the Chinese Communist Party (CCP). This has resulted in numerous accusations of espionage by both Chinese and complicit U.S. citizens. Recently, a Harvard professor was arrested for espionage on behalf of China.⁵⁷⁶

Chinese drones are being imported into the U.S. for surveillance operations during COVID-19 in multiple cities. Matt Gaetz has warned Americans that these drones are trojan horse operations designed to spy on Americans.⁵⁷⁷

The Chinese ambassador to the U.S., said that America must make a "fundamental choice" about whether it can live peacefully with a "modernized, strong, prosperous" China. Under President Xi Jinping, China has become more assertive, expansionist and a more repressive power. "

"I think that the fundamental question for the United States is very simple," he said.

"Is the United States ready or willing to live with another country with a very different culture, a very different political and economic system...in peace and cooperate on so many and still growing global challenges?"⁵⁷⁸

5G Competition for World Domination

5G network technology developed by the Chinese is being exported around the world. It includes security risks that have only recently come to the attention of Western governments.

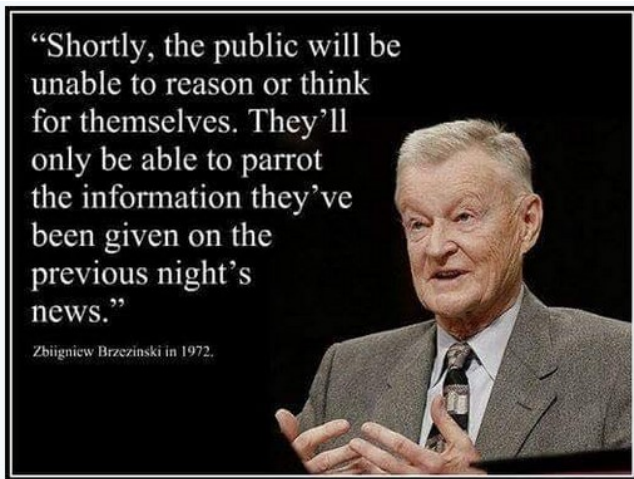

Thus, the U.S. has banned Huawei and ZTE from providing 5G service in the U.S. as it has an internet backend controlled by the Chinese Communist Party (CCP) which can be used to spy on or control the connected technology without the knowledge or consent of the
